

John Doe  
City of New Bedford  
123 XYZ Street  
New Bedford, MA 02740

Dear John:

Re: Targeted Brownfields Assessment Questionnaire

EPA New England wishes to thank you for your participation in our Targeted Brownfields Assessment Program. Our records show that the ABC site in New Bedford received a Targeted Brownfields Assessment. EPA New England initiated this regional program in 1996 to help municipalities redevelop contaminated parcels in their community. Under this program, EPA New England conducts environmental assessments at Brownfields sites in New England to minimize the uncertainties surrounding the actual or perceived contamination associated with these sites.

An integral part of the Targeted Brownfields Assessment Program is tracking the successes that are a result of the program. This information helps to provide the justification for continued funding of the program allowing communities such as yours to participate in this important regional program. Please take a few minutes to review and return the attached Targeted Brownfields Assessment questionnaire.

Please feel free to contact me at (617) 918-1394 or by email at [chow.james@epa.gov](mailto:chow.james@epa.gov) if you have any questions.

Sincerely,

James S. Chow  
Brownfields Program
